

JOSEPH WAMUI

AWS CLOUD PRACTITIONER

Profile

Passionate AWS Cloud Practitioner and AWS Restart graduate with a solid foundation in cloud computing, Linux administration, and Python programming. I am enthusiastic about driving innovation and ready to contribute to dynamic projects. Eager to leverage my skills, I am committed to making a significant impact in the evolving landscape of cloud computing.

Education

High School
Nyeri High School 2012 - 2015

Bachelor of the Built Environment (Construction Management)
Technical University of Kenya 2016 – 2021

AWS Cloud Computing Boot Camp
AWS Re-start Sep 2023 – Dec 2023

Experience

Kasha Properties LTD - Nairobi, Kenya Oct 2021- Jun 2023
Project Manager

- Collaborated with the project consultants and the Main Contractor over the execution of the first construction phase of the Proposed 12-storey Zara Apartments in South C.
- Collaborated with the project consultants over the contract signing and completion of the design phase of the Proposed 18-storey Zara Max Apartments Project in Parklands.
- Monitored subcontractor operations and applied effective time resource and money management strategies to deliver under-budget project completion.
- Prepared and submitted detailed reports outlining deviations in workmanship, construction activities, and schedules and provided well-considered recommendations for improvements.
